

GUIDELINES FOR LATE BREAKING ABSTRACT SUBMISSION

Important Dates

Opening of submission:	July 26, 2021
Deadline for submission:	Monday, August 23, 2021;9 am, CET
Notification of acceptance/rejection:	Friday, September 10, 2021
Deadline for withdrawal/changes:	Wednesday, September 15, 2021

The UEG Scientific Committee invites you to submit your research for the Late-breaking abstract category. Accepted abstracts will be presented orally during dedicated Late-breaking sessions and require a pre-recording of the presentation. A limited number of Late-breaking abstracts will be accepted. Late breaking abstracts will either be accepted as an oral presentation or they will be rejected. They will not be eligible for a poster session.

The UEG Scientific Committee understands the most exciting and rapidly advancing research may not be ready at the time of the regular abstract submission deadline. The late breaking abstract category permits later submissions only with new research outcome. As part of the submission, authors must explain why the scientific research is novel and significant enough to be considered for a late breaker session and must certify that the results became available after the regular abstract deadline of April 30, 2021

The category is not intended to offer a second deadline for standard abstract submission.

Abstracts should only be submitted as Late-breaking abstracts if they meet the following criteria:

- The scientific research was not completed and could not have been submitted at the time of the regular abstract submission deadline on April 30, 2021
- The abstract contains research that is original and has not been previously published nor has been submitted to, presented at or is under consideration for any other scientific meeting taking place before UEG Week Virtual 2021.
- The work is novel, of major significance, evidence-based and has scientific merit.
- The abstract has not been previously published as a FULL PAPER.

Further Information

If you have any additional questions or need further information concerning late breaking abstract submission, please contact:

UEG Week 2021 Abstract Management
