

ESGE Hands-on Training

Tuesday, October 15, 2024

Walk-ins welcome – no registration!

10:30 - 12:00

- Ergonomics in endoscopy
- Red density
- Hemostasis - Different facets of bleeding management
- ESD - The beginning and the end: lifting of the lesion and closure of the defect
- Double balloon enteroscopy training
- Stone management with different solutions
- Expert faculty guided session on resection technique for EMR and ESD
- Cap assisted APC with the ArgoCap
- Hindering stent migration with stentfix OTSC

13:00 - 14:30

- Ergonomics in endoscopy
- Red density
- ERCP - Access and difficult stone management
- EUS - Mastering FNA/FNB techniques with Aplio i800 EUS and EZ Shot 3 Plus
- Double balloon enteroscopy training
- Stone management with different solutions
- Expert faculty guided session on resection technique for EMR and ESD
- Cap assisted APC with the ArgoCap
- Hindering stent migration with stentfix OTSC

ESGE Learning Area

Walk-in sessions at a glance:

ERGONOMICS IN ENDOSCOPY

By PENTAX Medical

WHAT IT'S ABOUT

- Focus on the design of endoscopic tools to optimize the comfort, efficiency, and safety of both the operator and the patient.

RED DENSITY

By PENTAX Medical

WHAT IT'S ABOUT

- Red Density offers real-time, operator-independent assessment of colonic surface and inflammation with an objective scale. It predicts sustained remission and supports treat-to-target strategies, enhancing precision in patient care.

DOUBLE BALLOON ENTEROSCOPY TRAINING

By Fujifilm

WHAT IT'S ABOUT

- Showcasing enteroscopy DBE, how to use DBE and insert to smallball with phantom.
- Practice safe and effective use with new solutions available on the market from Fujifilm.

STONE MANAGEMENT WITH DIFFERENT SOLUTIONS

By Fujifilm

WHAT IT'S ABOUT

- Showcasing different treatment options available for tricky stone management.
- Practice safe and effective use with new solutions available on the market from Fujifilm.

EXPERT FACULTY GUIDED SESSION ON RESECTION TECHNIQUE FOR EMR AND ESD

By Erbe Elektromedizin

WHAT IT'S ABOUT

- Use of VIO3 modes: endoCut Q/I and preciseSect.
- Needle-free high pressure injection with waterjet.
- Hot snare polypectomy.
- ESD technique tips and tricks.

CAP ASSISTED APC WITH THE ARGOCAP

By Ovesco Endoscopy

WHAT IT'S ABOUT

- How to do precise ablation despite peristalsis.
- Improved endoscopic handling.
- Increased accessibility to the target tissue.
- Enhance your endoscopic toolbox.

HINDERING STENT MIGRATION WITH STENTFIX OTSC

By Ovesco Endoscopy

WHAT IT'S ABOUT

- How to successfully fixate a stent with the stentfix OTSC System
- Mounting of the device.
- Correct placement of clip on the target tissue.
- Clinical effectiveness.
- Removal of clip if necessary.

ESGE Learning Area

Walk-in sessions at a glance:

HEMOSTASIS – DIFFERENT FACETS OF BLEEDING MANAGEMENT

By Olympus Medical

WHAT IT'S ABOUT

- Argon Plasma
- Hemostatic powders: EndoClot PHS/Adhesive
- Clipping
- PolyLoop

ERCp – ACCESS AND DIFFICULT STONE MANAGEMENT

By Olympus Medical

WHAT IT'S ABOUT

- Sfincterotomy
- Cannulation
- Lithotripsy and Emergency Lithotripsy

ESD – THE BEGINNING AND THE END: LIFTING OF THE LESION AND CLOSURE OF THE DEFECT

By Olympus Medical

WHAT IT'S ABOUT

- How to effectively lift the lesion?
- Lesion closure with continuous endoscopic hand suturing.

EUS – MASTERING FNA/FNB TECHNIQUES WITH APLIO I800 EUS AND EZ SHOT 3 PLUS

By Olympus Medical

WHAT IT'S ABOUT

- Accurate lesion identification and characterization.
- Needle insertion techniques.
- Real-time ultrasound imaging for best possible visualization of needle and lesion.
