

Gastroenterologist-Surgeon collaboration to optimise patient care.

A workshop run in cooperation with [ESSAT](#).

Date, place and time

- Monday, October 14, 2024
- 3 clinically relevant topics in the following fields will be discussed:
 - 09:30h – 11:00h Upper GI
 - 11:30h – 13:00h HPB
 - 14:00h – 15:30h Lower GI

Registration

When can you register?

Pre-registration opens on **Monday, October 7, 2024, at 10:00 CEST** via a link on the [UEG website](#). (Closes Thursday, October 10, 2024, at 23:59 CEST.)

Limited spots are available, and participation is based on a **first-come, first-served basis** and does not involve any extra costs in addition to your registration for UEG Week.

Pre-registered participants **must pick up their ticket** for their booked workshop onsite at the workshop welcome desk minimum **10 minutes before the start of this course**. Otherwise, the spot will be lost.

It is possible to check onsite at the above-mentioned welcome desk whether spots have freed up, again at a first-come, first-served basis.

Who can register?

Any physician with a **UEG Week registration** (no PGT only registrations).

What exactly can you register for?

Registration is possible **for one or more workshops**.

Workshop Concept

During each session, participants will discuss on 3 stations (30 min each) with an experienced gastroenterologist and a surgeon the most important information on a clinical finding or treatment to improve patient care and to better collaborate with surgeons. Each station covers a different topic, and all discussions are case-based and illustrated with videos and/or images.

Learning objectives

Basic knowledge of:

- The pre-operative work up for various diagnoses in the GI tract.
- The information the surgeon needs to decide on the treatment plan.
- The rationale of surgical decision-making.
- The most common challenges surgeons face in patients referred by gastroenterologists; tips, tricks and pitfall avoidance.

Topics

Upper GI | 09:30 – 11:00

1. Diagnosis and treatment of complications of upper GI surgery
2. Staging of gastric and oesophageal cancer
3. Indications for anti-reflux surgery

Faculty: Ian Gralnek, Misha Luyer, Styliani Mantziari, Nastazja Pilonis, Daniel Sifrim, Bas Wijnhoven

HPB | 11:30 – 13:00

1. Mass forming pancreatic lesion: How to decide it is not a surgeon's issue?
2. Therapeutic options for necrotising pancreatitis
3. Cirrhotic liver with a mass: what to do?

Faculty: Marianna Arvanitakis, Georg Beyer, Benedicte Delire, Isabella Frigerio, Daniel Hartmann, Fabrizio Panaro

Lower GI | 14:00 – 15:30

1. Endoscopically non-resectable colonic polyp
2. Proctological emergencies
3. When to operate in ileocecal Crohn's

Faculty: Mahdi Al-Taher, Danny de Looze, Ugo Grossi, Michal Kaminski, Monica Millan, Sebastian Zeissig
